

## **Do you want to volunteer to be a speaker?**

As part of the City of Miami Beach Education Compact, the City and Miami Beach Chamber of Commerce have partnered to establish a Speakers Bureau. We will provide leaders of our business community to the Middle and High School classrooms in Miami Beach schools as speakers. The topics for our students will reflect our business professionals' experience in their career and the road traveled after high school. Topics can vary; however, the general theme should focus on "My business/profession and how I got to where I am." The impact is designed to be positive, encouraging and insightful.

No speaking experience necessary! Just come and talk with us about yourself. What did you do to prepare for your career/job? What were you like when you were in school? Is what I am learning in school today relevant and going to make a difference for my future? That is all we want to know! It is a minimal commitment that will have a maximum impact.

***Gratitude is guaranteed!***
