

## Brad Mester

Please accept this letter as my registration to run for the available Pension Trustee Position. I have been employed by the city for the last 4.5 years. My first 6 months were as a Management Consultant in OBPI. The last 4 years are as a Financial Analyst in the Building Department.

The recent proposed pension ordinance has made me take a hard look at the running of our pension and the representation available to review the pension for ALL employees. I will bring more than 35 years of experience running businesses outside of the city to manage all aspects of the pension.

Some of my past experience includes:

Three years of independent consulting on process improvement with corporations such as City Furniture and Target.

Six years of owning and managing two physical therapy clinics treating over 100 patients per day.

Eleven years of owning and managing a manufacturer of convertible tops with distribution nationwide.

Two years as a Financial Consultant with Merrill Lynch.

Thirteen years with Levitz Furniture culminating as the Vice President in charge of carpeting and area rugs for the entire chain.

Graduation as a Management Engineer from Rensselaer Polytechnic Institute.

A handwritten signature in black ink, appearing to read "Brad Mester", with a stylized flourish at the end.
