

**PARENTAL DISCRETION IS ADVISED**

This year, over 13 million American kids will be bullied at school, online, on the bus, at home, through their cell phones and on the streets of their towns, making it the most common form of violence young people in this country experience. BULLY is the first feature documentary film to show how we have all been affected by bullying, whether we have been victims, perpetrators or stood silent witness. Every school in the U.S. is grappling with bullying. Each day more than 160,000 kids across the country are absent from school because they are afraid of being bullied.
